- Overall, our achievement on Provincial Achievement Tests was high. We are very proud of our results.
- Our teachers are the first reason for our high achievement. They have a continual focus on improvement, this is having a positive impact on our PAT results. Teachers are reporting that they have more strategies to help students achieve at higher levels.
- In grade 9, we had a very strong group of students which explains our high achievement in the Standard of Excellence at that level.
- In grade 6, both of our teachers were in their second year of teaching the grade and reported that they were more comfortable with the curriculum. They identified their own growth in identifying problematic curricular areas with students and proactively focusing their instruction in these areas. We believe that this had a positive impact on year over year growth.
- We will continue to focus on and problem solve around our Standard of Excellence rates in grade 6 and our Acceptable Standard rates in grade 9.

## GRAMINIA SCHOOL: PROVINCIAL ACHIEVEMENT TESTS

The great majority of Parkland School Division students write the Provincial Achievement Tests. Participation rates are an important consideration as these results represent all students enrolled to write the test.

Three values are added for comparison: [+/-] is the change in score from the previous year. [AB] is the gap from the province. [PSD] is the gap from Parkland School Division. The values are suppressed [N/A] when six (6) or less students write a test.

### Grade 6
