There are two dates left to choose from, one being not until March. It is not yet clear how or if there will be an impact on capacity limits at that time. Feeling Sick? Here's What to Do - UPDATE

As we settle back into our daily routines following the Winter Break, we'd like to draw your attention to some changes to the provincial health measures that will have a direct impact on schools. These changes are summarized in the Division's updated [Stay at Home Guide](#). Please keep your child home if they are ill so we can all do our part to keep our school community healthy, safe and so we can remain open.

If your child has a fever, or cough or shortness of breath or difficulty breathing or loss of smell or taste, your child must isolate, even if double vaccinated, at home. As more of the general population becomes fully vaccinated, this will play a factor in how soon your child may return to school following a legally required isolation due to a positive COVID-19 test. Fully vaccinated individuals only need to isolate for 5 days or until symptoms resolve, whichever is longer. **PLUS** a new measure includes 5 days of wearing a mask at all times when around others at school. We can work with families to help facilitate this upon a student's return to class. Those partially

vaccinated or non vaccinated students remain legally required to isolate for 10 days or until symptoms resolve, whichever is longer, before returning to school.

If your child has any single symptom (Chills • Sore throat/painful swallowing • Runny nose/congestion • Feeling unwell/fatigued • Nausea, vomiting or diarrhea • Unexplained loss of appetite • Muscle or joint aches • Headache • Pink eye (conjunctivitis)), even just one, please keep your child home for 24 hours and monitor the symptom. If the symptom is still present or worse, or if an additional symptom were to occur, please complete the [AHS online assessment](#) and follow the directions. Please only send your child back to school when feeling better, and symptom free.

When calling the office or leaving a message, please let us know what the illness is, and if there is any follow up that we should be aware of. (ex. Sore throat, isolating and COVID-19 test on Monday)
